The *Coloring Book of Unfortunate Situations* was printed by Claire Siepser of Little Dinosaur Press as part of *The Play Project* to fulfill her MFA degree at the University of Alabama. Printed in an edition of ten copies letterpress printed on handmade paper made from abaca and discarded hospital bed sheets, fifty copies on machine-made paper, an edition of photocopied zines. the content is also available as a PDF at www.claresiepser.com. The situations were collected from the community through a questionnaire and all of the responses are printed on the cover. The caption text was written by the lovely and talented graphic designer and artist Ellen Spector.

May your situations be filled with trampolines and your nights be filled with campfires.
